Providing Services to Accelerate Growth

The NJMC Business Accelerator provides early-stage businesses the support services, guidance and networking opportunities that are critical to turning an idea or technology into a successful business.

A project of the New Jersey Meadowlands Commission, the NJMC Business Accelerator is committed to providing the resources and support early-stage companies need to reduce the time it takes to commercialize and become self-sustaining.

The NJMC is particularly interested in entrepreneurs focused on renewable and alternative energy, and other sustainable green technology and service businesses.

The NJMC Business Accelerator is a unique and valuable addition to the New Jersey Business Incubation Network. The NJBIN is a state-wide collaborative network of incubators in New Jersey which provides critical support services, networking, access to capital and technical resources as well as office or laboratory space to emerging entrepreneurial technology businesses.

The NJMC Business Accelerator provides an array of critical resources and services that may otherwise be unaffordable or inaccessible to young businesses. In the early stages, technology startups often face challenges on the road to profitability. Finding the right working space in a collaborative and supportive environment can accelerate the commercialization process and increase the chance for success. Among the services the NJMC Business Accelerator provides:

- > entrepreneurship development and networking
- > one-on-one mentoring
- > business planning, milestone tracking
- > access to the Meadowlands Environmental Research Institute (MERI)
- > collaborations with universities, colleges and community groups

- > marketing, product manufacturing strategy development
- > access to potential investors and clients
- > grant training and writing support
- > government agency navigation
- > access to R & D, prototyping
- > access to workforce development and training
- > regular entrepreneurial networking forums and workshops with experts in law, strategy development, accounting and other business disciplines
- > a professional business environment, shared office equipment
- > flexible leases and affordable rents
- > relocation support upon graduation from the Accelerator

New Jersey Meadowlands Commission

The creation of the Business Accelerator supports the NJMC's goal of creating jobs in the region and balancing economic growth with protection of the environment. It also advances New Jersey's Energy Master Plan and Economic Growth Strategy. The NJMC is committed to support of the Business Accelerator and its clients. The NJMC is a regional planning agency experienced in dealing with private sector businesses. The NJMC has a highly skilled staff experienced in land use and environmental planning, science and engineering and regulatory affairs. The NJMC also forged collaborations with universities, colleges and local and state business groups to increase the resources available to Business Accelerator clients.
