

We Bring the World to New Jersey

NOTICE

To: Meadowlands District
From: The New Jersey Sports and Exposition Authority
Date: September 2018
Re: **Stream Dumping Regulations**

This Notice is to inform you that the New Jersey Sports and Exposition Authority (formerly the New Jersey Meadowlands Commission and the Hackensack Meadowlands Development Commission) has regulations in place to prevent the dumping of waste into the waterways of the Meadowlands District.

The NJSEA regulations address the responsibilities for property maintenance by property owners in regards to drainage systems under section 19:4-6.5(b)2 which reads:

All drainage facilities, including ditches, basins, downspouts, gutters, inlets and pumps, shall be maintained in satisfactory operating condition and free of debris and siltation. Preventative and corrective maintenance shall be required to maintain the function of stormwater management measures

The NJSEA regulates stream dumping by the enforcement of regulation 19:4-6.5(b)2 listed above.

Please contact the NJSEA at 201-460-1700 to report any instances of stream dumping.
