NJMC Flyway Gallery Hosts “Nature Draws Itself” Exhibit During August and September

LYNDHURST, N.J.—The New Jersey Meadowlands Commission’s (NJMC) Flyway Gallery will host a digital illustration exhibit featuring nature and wildlife inspired by the beauty of the Meadowlands during August and September. The show, “Nature Draws Itself and Other Works of Art,” by Lyndhurst artist E. Jessie Monaco, will be on display from Monday, Aug. 4, through Thursday, Sept. 25. The Flyway Gallery is located in the Meadowlands Environment Center in DeKorte Park, the home of the NJMC.

“We are pleased to host this creative exhibit which showcases the work of one of our talented Meadowlands District artists,” said Marcia Karrow, Executive Director of the NJMC. “I encourage everyone to visit “Nature Draws Itself” while at DeKorte Park.”

The exhibit features digital photographs of natural scenes with a side-by-side digital illustration of what Monaco imagines could be there. Her work is a fun and interesting demonstration of what the creative mind can imagine. E. Jessie Monaco is a three-time Manhattan Arts International Award of Excellence winner. She is also a graphic artist and has designed greeting cards, textiles, tee-shirts and posters for various clients. For more information, visit the artist’s website, www.jessiemonaco.com.

The Flyway Gallery is open from 8 a.m. to 4 p.m. Monday through Friday excluding holidays. Directions to DeKorte Park can be found in the “About the NJMC” section of the Commission’s website, www.njmeadowlands.gov, or by calling 201-777-2431.
